Mamparas de ducha

Tiempo de mamparas

Shower enclosures time

Empezamos en 1993 fabricando bañeras de hidromasaje y columnas de ducha con una visión: transformar el baño y democratizar el hidromasaje. A finales de los 90 introdujimos las cabinas de hidromasaje acrílicas, un producto que aunaba la complejidad y tecnologías necesarias para la fabricación de mamparas.

En 2010, con toda la experiencia acumulada con las cabinas de hidromasaje y el cambio del modelo de consumo derivado de la crisis económica decidimos implementar las mamparas de ducha como familia de producto estratégica para la marca. Con una oficina de diseño ya fuertemente establecida en la empresa, concebimos las mamparas con la misma filosofía que el resto de familias de producto y desarrollamos productos con una estética cuidada, con la mejor relación calidad-precio.

En nuestra búsqueda para dar soluciones a las necesidades más complejas de cada cliente, en 2018 empezamos la fabricación de mamparas a medida y customizadas, ampliando para ello nuestras instalaciones con más de 1.000 m², para dar cabida a dos líneas nuevas de mecanizado de perfiles, ensamblaje y embalaje.

En 2023 se incorpora el **Total Look**, unificando acabados con otras familias de producto como las griferías.

We started in 1993 manufacturing whirlpool bathtubs and shower columns with a vision: transforming the bathroom and democratizing the whirlpool. At the end of the 90's, we introduced acrylic hydromassage cabins, a complex product that utilised the technology necessary for the manufacture of shower enclosures.

In 2010, with all the experience accumulated with the hydromassage cabins, we decided to implement the shower enclosures as a strategic product family for the brand. Benefitting from a strong, pre-established internal design office, we conceived the shower enclosures with the same philosophy as all our products: to develop a carefully curated aesthetic and offer the best value for money.

In our quest to provide solutions for even the most complex needs of each customer, in 2018, we began manufacturing custom-made shower enclosures, expanding our facilities by more than 1,000 m² to house two new machining, assembly, and packaging lines.

In 2023, we introduced the **'Total Look'** concept, creating a cohesive aesthetic by unifying finishes across product families such as faucets and accessories.

Nuestro ADN

Our DNA

Vidrio templado 8mm
Tempered glass 8mm

Tratamiento antical
Anti-limescale treatment

Sanycces es la suma de Sanyc (sanitario) y las siglas C.E.S.

C de Calidad.

Cristal termoendurecido de seguridad acorde a EN 12150.

Marcado CE en todas las mamparas.

Control de calidad en cada fase de la producción para asegurar los más altos estándares.

Todas nuestras mamparas estándar son reversibles, por lo que no hay duplicidad de códigos para versiones de izquierda y derecha.

Embalaje en dos bultos para mamparas con peso superior a 60 kg.

S de Servicio.

En mamparas de ducha estándar la disponibilidad es inmediata gracias a nuestro stock de producto terminado.

Sanycces, is the sum of Sanyc (for sanitary-health) and acronyms C.E.S.

C for Quality ("Calidad" in Spanish)

Thermoset safety glass according to EN 12150.

CE marking on all shower enclosures.

Quality control at every production stage to ensure the highest standards.

E for Efficiency.

All our standard shower enclosures are reversible, so there is no duplication of codes for left and right versions.

Packing in two boxes for shower enclosures weighing more than 60 kg.

S for Service.

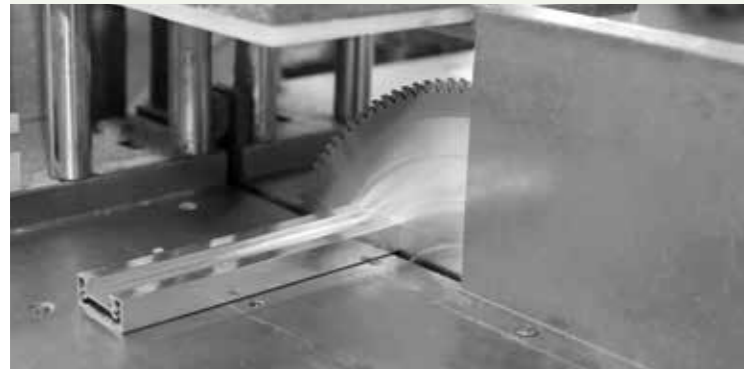

For standard shower enclosures, the availability is immediate thanks to our stock of finished product.

Una historia de vidrio y metal

A story of glass and metal

Empleamos aluminio anodizado para la periferia de nuestras mamparas por sus ventajas estructurales, su propiedad anticorrosiva y por sus posibilidades decorativas, además de por su manufacturabilidad.

We use anodized aluminium for the profiling of our shower enclosures due to its structural advantages, anti-corrosion properties and decorative possibilities, as well as its manufacturability.

El cristal es el alma de la mampara. Termoendurecido de seguridad, manipulado con mimo y pulido para eliminar cualquier impureza.

Glass is the soul of the shower enclosure. Thermosetting safety, handled with care and polished to remove any impurities.

Sanyclean

Nuestras mamparas de ducha cuentan con un tratamiento antical permanente aplicado industrialmente, **sanyclean**, y una película superficial incolora que crea una alta tensión superficial.

Como resultado, el vidrio repele el agua y evita la acumulación de cal y suciedad. Gracias a este tratamiento, ofrecemos las siguientes ventajas:

Fácil limpieza.

Menos depósitos de suciedad y de cal.

Our shower enclosures feature an industrially applied permanent anti-limescale treatment - **sanyclean** - and a colourless superficial film that creates high surface tension.

As a result, the glass repels water and prevents the buildup of limescale and dirt. Through this treatment, we offer the following benefits:

Easy to clean.

Less dirt and limescale deposits.

Un acabado para cada estilo

One finish for each style

CR

El cromo brillo es bello, fácilmente combinable y atemporal. El acabado comienza con un anodizado que protege la superficie, seguido de un cromado, proporcionando resistencia a la corrosión, un brillo intenso y una suavidad excepcional.

Chrome plate is beautiful, highly versatile and timeless. The finish begins with anodising to protect the surface, followed by chrome plating, providing corrosion resistance, intense shine and exceptional smoothness.

BM

Negro mate, un acabado básico y versátil que se adapta a múltiples estilos. Sedoso, oscuro y profundo. El anodizado con posterior lacado protege el color de la corrosión, asegura su durabilidad y mantiene la apariencia impecable con el tiempo.

Black Matt, a classic and versatile finish that adapts to multiple styles. Silky, dark and deep. Anodising with subsequent lacquering protects the colour from corrosion, ensures its durability and maintains its impeccable appearance over time.

MG

Metal gun, este acabado cepillado en color gris oscuro resulta contundente, industrial y masculino. Este acabado se obtiene mediante un proceso de anodizado del aluminio. El aluminio anodizado ofrece una excelente resistencia al desgaste, a la corrosión y al paso del tiempo, además de una gran estabilidad del color.

Metal gun, this dark grey brushed finish is bold, industrial and masculine. This finish is obtained through an aluminium anodising process. Anodised aluminium offers excellent resistance to wear, corrosion and ageing, as well as great colour stability.

RM

Raw metal, la fusión entre los acabados industriales y la elegancia se está extendiendo en nuestros hogares gracias a su innovador y sofisticado acabado en aluminio anodizado. Este proceso aporta una estética contemporánea con una superficie resistente y uniforme.

Raw metal, the fusion of industrial finishes and elegance, is becoming increasingly popular in our homes thanks to its innovative and sophisticated anodised aluminium finish. This process provides a contemporary aesthetic with a resistant and uniform surface.

NB

Níquel cepillado, un acabado minimalista, atemporal y elegante, ideal para combinar con acero inoxidable. Su acabado en aluminio anodizado garantiza una gran durabilidad, resistencia al desgaste y una excelente estabilidad del color.

Brushed nickel, a minimalist, timeless and elegant finish, ideal for combining with stainless steel. Its anodised aluminium finish guarantees high durability, wear resistance and excellent colour stability.

BG

Brushed gold, un sofisticado y discreto color oro 8K. Se convierte en una pieza destacada, protagonista de cualquier composición. Su acabado en aluminio anodizado aporta durabilidad, resistencia al desgaste y estabilidad del color, manteniendo su elegancia intacta con el tiempo.

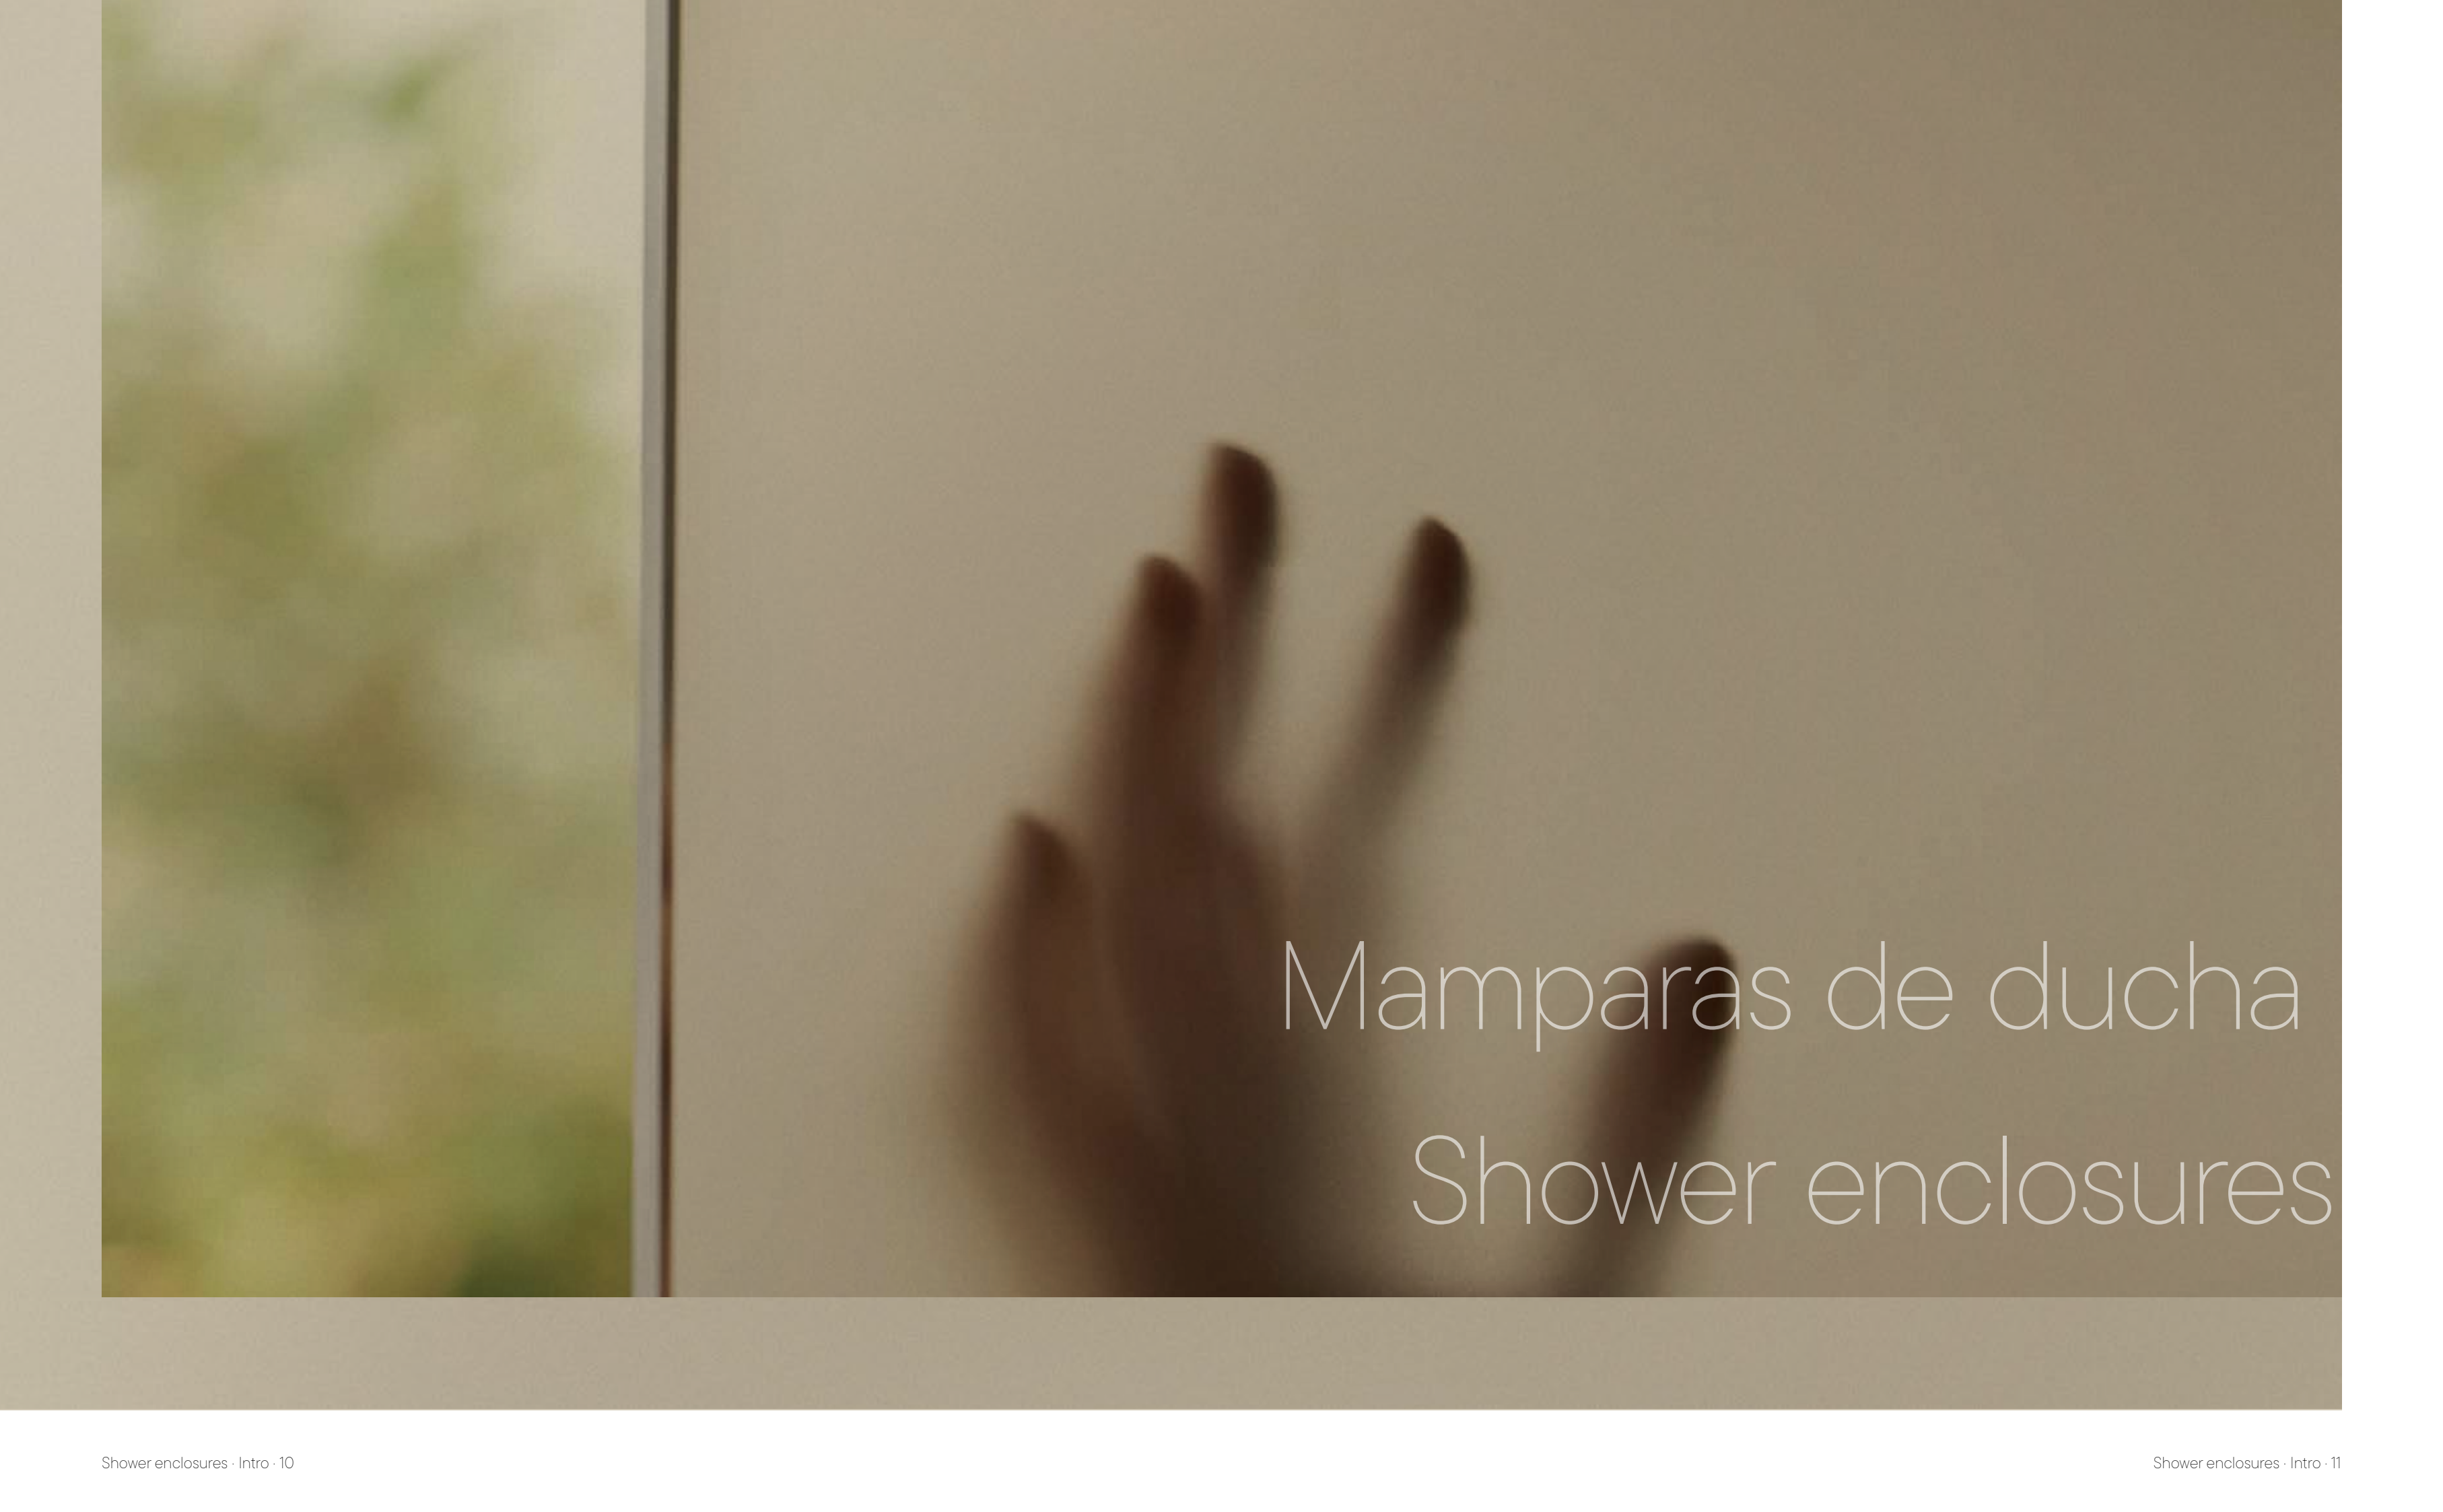

Brushed gold, a sophisticated and discreet 8K gold colour. It becomes a standout piece, the star of any composition. Its anodised aluminium finish provides durability, wear resistance and colour stability, maintaining its elegance intact over time.

RG

Brushed rose gold, un acabado moderno con un toque rojizo que transmite estilo y elegancia. Su acabado en aluminio anodizado de alta calidad garantiza resistencia al desgaste, durabilidad y colores que se mantienen intactos con el tiempo, conservando siempre su sofisticada apariencia.

Brushed rose gold, A modern finish with a reddish touch that conveys style and elegance. Its high-quality anodised aluminium finish guarantees wear resistance, durability and colours that remain intact over time, always retaining its sophisticated appearance.

A hand is pressed against a glass shower enclosure. The background is a blurred green, suggesting an outdoor setting. The text "Mamparas de ducha" and "Shower enclosures" is overlaid on the right side of the image.
